

# Decision Criteria

**What has been considered so far in measuring one alternative vs. another:**

- Length
- Terrain
- # of Canal Xings
- Length of Bridges
- Schools, Churches, Parks, etc..
- Floodplains
- Wildlife Habitat
- Hazardous sites
- Wetlands
- Transportation Network
- Interchange Locations
- Public Water Supplies\*
- Impacts to Existing Buildings
- Leaving Remainder Parcels
- Loss of Access Rights
- Irrigated Farmland
- Dairies, CAFO operations
- Commercial/Industrial sites
- Gravel Pits
- Archeological Sites\*\*

\*\* Information not publically available

**What do you feel are the three most important?**

**What else should be considered?**

**What should be thrown out?**
