

Local Knowledge

What do you know that the highway districts should know?

To help us in planning the corridor, local residents' knowledge of the area can identify problems or solutions that might otherwise be overlooked. Let us know what you know about the study area, including information such as:

- Areas of soft soils or springs
- Old dump sites
- Cemeteries or graveyards
- Historic flood levels
- Shady spots that ice in wintertime
- Wildlife migrations or concentrations
- Historical or cultural sites
- Other information you feel might be of use
