MIDLAND & USTICK ROUNDABOUT Construction Project

The Nampa Highway District in partnership with Canyon Highway District No. 4, City of Caldwell and the City of Nampa, will close the intersection of Midland Blvd. and Ustick Rd. north of Nampa to rebuild the intersection into a roundabout. The closure will start May 4th and run through the end of July.

The intersection is currently an all-way-stop configuration and is a frequent point of congestion as well as a high crash location. The project is intended to improve traffic flow through the intersection as well as reduce the crash rates.

All surrounding residences will be accessible throughout the project, but will only be approachable from a single direction. North-south through traffic will be detoured around Northside Blvd. or Middleton Rd., and east-west through traffic will be detoured around to Linden Rd. or Cherry Ln.
